Career Exploration Lab

You're Lucky to Be Here! Here is Why!

Pitsco is a Career Exploration Lab that gives students the unique opportunity to learn about careers in Science, Technology, Engineering and Science through Hands-On Projects. Students learn a variety of subjects and how to work as a team! This program is Fun, Exciting and unlike any other classroom! This program is currently offered to our middle school students and is another example of how Harmony School of Innovation is preparing students for a bright and interesting future!
